**HAVELOCK**

To whom it may concern:

**Ms. Anja Gocke**

Anja commenced work here at Sanford Limited Havelock as a Labour Hire employee through a nationwide firm Allied Workforce Limited. She has been involved in the processing of Greenshell Mussels.

Sanford Havelock is the largest Greenshell Mussel processing facility in New Zealand and processes up to 90 tonnes per day.

She introduced herself to me after a number of weeks working on site, and suggested that she could greatly improve the standard of our Company media, information and written communications to our employees. We agreed, and she has improved and refreshed our visual and written communications, our posters and other information which provides important communications to our employees and other stakeholders.

She has completed work relating to Health and Safety, Workplace Induction, Communications, Evacuations and other general information all round our plant. The quality of the work is impressive and of a much higher standard than we ourselves could have produced.

Anja has been able to use her skills to assist us with a professional product of which we are very proud.

I would recommend Anja and her work to any future employer, she has been busy, productive, and has a pleasant personality.

Anja leaves us after two months service to continue her travels around New Zealand; we wish her a safe and happy journey.

**Mr Wayne MacDonald**
